

PERMANENT COUNCIL

OEA/Ser.G  
CP/doc.3695/03  
14 February 2003  
Original: Spanish

ANNUAL REPORT OF THE  
INTER-AMERICAN TELECOMMUNICATION COMMISSION (CITEL)  
TO THE GENERAL ASSEMBLY

This document is being distributed to the permanent missions and  
will be presented to the Permanent Council of the Organization.

ORGANIZATION OF AMERICAN STATES  
WASHINGTON, D.C.

THE ASSISTANT SECRETARY GENERAL

February 14, 2003

Excellency:

I have the honor to address Your Excellency to forward a note of February 13, 2003, in which the Executive Secretary of the Inter-American Telecommunication Commission (CITEL), Mr. Clovis Baptista, presents to the General Assembly at its thirty-third regular session the Annual Report of CITEL for 2002.

Accept, Excellency, the renewed assurances of my highest consideration.

Luigi R. Einaudi  
in charge of the General Secretariat

His Excellency  
Ambassador Arturo R. Duarte Ortiz  
Permanent Representative of Guatemala  
to the Organization of American States  
Chair of the Permanent Council  
Washington, D.C.

**Organization of American States**

**CITEL  
ANNUAL REPORT  
2002**

*Prepared  
by the  
Secretariat  
of CITEL*

## Executive Summary

Information and communication technologies (ICTs) are an economic sector cross-cutting all markets, industries, and human activity, one characterized by accelerated technological development and dynamism, ICTs thus constituting an indispensable tool for human development.

ICTs, appropriately utilized, can generate new opportunities for access to information, enhance productivity and education – in short, can facilitate progress in the creation of equal opportunity. However, the divide between those with access to ICTs and those without continues to expand. Whether that phenomenon continues or ICTs become a powerful instrument for growth will depend on how such technologies are introduced and disseminated.

Recent times have been ones of contrast in the telecommunications sector. Although slow expansion continues in installed telecommunication infrastructure, the private sector is encountering many difficulties, such as job losses, project cancellations, and, in general, increasing skepticism in financial circles regarding the viability of the new services.

In addressing the challenges of the telecommunications environment, in 2002, CITEL launched a series of initiatives to enhance its capacity to meet the needs of its Member States and Associate Members.

Foremost among such CITEL initiatives were:

- Promotion of connectivity within the Americas region through preparation and approval of the Agenda for Connectivity and Plan of Action of Quito;
- Support for the Member States and Associate Members in the exchange of information and best practices to enable changes in the telecommunications environment to be addressed;
- Strengthening coordination among subregional, regional, and international organizations to avoid duplication of effort;
- Increase in utilization of new forms of training in the telecommunications field so that personnel may access knowledge enabling them to take decisions;
- Improvement in CITEL procedures to reduce costs and information access time.

This report describes the activities and achievements of CITEL'S Permanent Consultative Committees, the results of the Third Regular Meeting of the CITEL Assembly, and CITEL's plans for 2003.

## **1. Introduction**

This Annual Report is published pursuant to the provisions of Article 90.f of the Charter of the Organization of American States and Article 17 of the CITELE Statute. Its contents are in keeping with the guidelines established by the OAS General Assembly in resolution AG/RES. 1452 (XXVII-O/97) for preparation of annual reports on the activities of the organs, agencies, and entities of the Organization.

This Report covers the period January through December 2002.

## **2. Origin and structure of CITELE**

The Inter-American Telecommunication Commission (CITELE) is an entity of the Organization of American States established by the General Assembly in its resolution AG/RES. 1224 (XXIII-O/93), in keeping with Article 52 of the Charter of the Organization. CITELE has technical autonomy in the performance of its functions, within the limits of the Charter of the Organization, its Statute, and the mandates assigned it by the General Assembly of the Organization.

### **2.1 Objectives of CITELE**

- a. To serve as the principal advisory body of the Organization in all matters related to telecommunications.
- b. To facilitate and promote, by all means available to it, the continuing development of telecommunications in this hemisphere.
- c. To organize and sponsor the periodic holding of meetings of technicians and experts to study planning, financing, construction, operation, standardization, technical assistance, maintenance and other matters related to the use and operation of telecommunications in the Americas.
- d. To promote the adoption of uniform technical standards within the framework of global standardization of the International Telecommunication Union (ITU).
- e. To recommend studies and promote the adoption of official agreements between the governments of the member states of the Organization in connection with the planning, installation, maintenance and operation of telecommunications systems in the hemisphere.
- f. To study the legal aspects of telecommunications, including the legal problems related to direct transmission via satellite, in order to prepare draft Inter-American conventions or agreements on these matters and to formulate a common position for the Member States of CITELE to take in this connection when dealing with the pertinent international agencies.
- g. To consider any other matter relating to Inter-American cooperation in the field of telecommunications as requested by the General Assembly or the Councils of the Organization.

## **2.2 Membership and participants**

All member states of the Organization are Members of CITELE.

The following organizations and entities may participate as observers:

- OAS permanent observers and, with the approval of COM/CITEL, states of the Americas that are not members of the Organization that have requested to participate in a meeting;
- With the approval of COM/CITEL, non-American States that are members of the United Nations or its specialized agencies that have asked to participate in a meeting;
- Inter-American specialized organizations and entities of the Organization; and inter-American intergovernmental regional organizations;
- The United Nations and its specialized agencies;
- International and national organizations that are parties to agreements or arrangements establishing cooperative relations with the Organization, and/or with its organs, agencies, or entities when such agreements or arrangements provide for the participation of observers;
- With the approval of COM/CITEL, international, regional, sub-regional, and national agencies and organizations that carry out telecommunications activities in the region and have asked to participate in a meeting.

The CITELE Statute also provides for participation, as an Associate Member of a Permanent Consultative Committee, by any recognized operating agency or scientific or industrial organization or any financial or development institution that is related to the telecommunications industry and that has legal personality, with the approval of the corresponding Member State of CITELE. Associate Members make a minimum annual contribution of US\$2,000 to the funding of the Commission [CITELE/RES.21 (II-98)]. Pursuant to a resolution of the Third Regular Meeting of the CITELE Assembly, as of January 2004, that contribution will be increased to US\$2,500. Associate Members may participate fully in all the activities of that Permanent Consultative Committee with voice but without vote. They may participate, present technical papers, and receive the documents of the Committee of which they are Associate Members, and its working and ad hoc groups. As of December 2002, CITELE has 204 Associate Members. A complete list of Associate Members is contained in section A of the Appendix.

## **2.3 Structure of CITELE**

CITELE's structure is:

- The CITELE Assembly
- The Permanent Executive Committee (COM/CITEL)

- The Steering Committee
- The Permanent Consultative Committees (CCPs):

**Prior to the Third Regular Meeting of the CITEL Assembly:**

- Permanent Consultative Committee I: Public Telecommunication Services (PCC.I)
- Permanent Consultative Committee II: Broadcasting (PCC.II)
- Permanent Consultative Committee III: Radiocommunications (PCC.III)

**Following the Third Regular Meeting of the CITEL Assembly:**

- Permanent Consultative Committee I: Telecommunication Standardization (CCP.I)
- Permanent Consultative Committee II: Radiocommunications including Broadcasting (CCP.II)
- The Secretariat

It should be noted that the Steering Committee generally meets once each year and assists in the Commission's management and strategic planning. The Permanent Consultative Committees (CCPs) provide advisory services to all entities comprising the regional telecommunication sector on matters pertinent to their respective spheres of competence. The CCPs establish, when necessary, working groups and ad hoc groups to study topics of special interest. At present, there are 18 working groups and ad hoc groups covering various aspects of telecommunications and radiocommunications.

### **3. CITEL Activities**

The main factors influencing the telecommunications sector are the rapid development of new technologies and services; establishment of deregulated markets; active private sector participation; and the establishment of independent regulatory bodies. Since CITEL's establishment, its programs of activities have expanded considerably, and its responsibilities have increased, as have the number of meetings, documents published, participants and, in particular, the number of Associate Members. In order to maintain its position as the leading telecommunications forum for Americas region, CITEL strives to address the issues facing the Administrations and the private sector on a daily basis.

In 2002, CITEL organized eight meetings, including the Third Regular Meeting of the CITEL Assembly, at which 70 resolutions, five recommendations, and 14 decisions were adopted.

The rest of this section of the report summarizes the most significant accomplishments and activities of 2002.

#### **3.1 Third Regular Meeting of the CITEL Assembly**

The CITEL Assembly serves as an inter-American forum for the exchange of views and experiences among senior telecommunication officials of the Member States of CITEL. The Third Regular Meeting of the CITEL Assembly was held August 12-16, 2002, in Washington, D.C., United States, and achieved very positive results. Among them were a restructuring that more appropriately defined the respective functions and priorities of the Permanent Consultative Committees, and the updating of the Strategic Plan and work program. In addition, the new officers of CITEL were

elected. As the Regular Meeting of the CITEL Assembly was held in August 2002, the annual meeting of the Steering Committee did not take place.

CITEL will thus be able to continue to provide, on an ongoing basis, a forum and mechanism for coordination of the activities of all those interested in the process of formulating telecommunication and ICT policies, including international, regional, and subregional organizations, the private sector, and other organizations related to the sector.

Different topics were considered at the Assembly, to be discussed in depth below, in particular, apart from those mentioned in other parts of this Report:

- Progress in implementing the Mutual Recognition Agreement on Conformity Assessment of telecommunications equipment (MRA) to ensure the availability of telecommunications equipment that is truly integrated within the Americas. The Caribbean and Central America countries are requested to make a particular effort to ascertain the requirements and advantages of participation in the MRA.
- Updating of the Blue Book on Telecommunication Policies in the Americas, with particular attention to the specific needs and requirements of the Central American and Caribbean countries. The Blue Book is a tool that has proven indispensable for the region's regulators, as it covers priority aspects of the sector, among them: spectrum management, interconnection, economic models for universal service, administrative procedures, convergence of services, and the Internet.

The Washington Declaration, adopted by the Assembly, acknowledged the lead part played by CITEL and decided to continue to consolidate and expand CITEL's capabilities so that it can respond fully to the commitments adopted by the Heads of State and Government at the Summit of the Americas in view of the fact that information and communication technologies and connectivity are priority elements of the sustainable development of the region.

### **3.2 Permanent Executive Committee (COM/CITEL)**

#### **January-August 2002**

Chair: Mr. José Pileggi Véliz (Ecuador)  
Vice-Chair: Mr. Adolfo Luis Italiano (Argentina)

#### **August-December 2002**

Chair: Mr. Marcelo Kohan (Argentina)  
Vice-Chair: Mr. Alvaro Retana (Costa Rica)

The Permanent Executive Committee is the governing body of CITEL and meets once each year. At the COM/CITEL meeting of 2002 (Buenos Aires, Argentina, December 9-12, 2002), the drafting of the Agenda for Connectivity and Plan of Action of Quito was completed, and the document was forwarded to the OAS Secretariat for the Summit Process for implementation. CITEL and, in particular, the Permanent Consultative Committees, will consider, in developing their work plans, ways to contribute to implementation of the Agenda for Connectivity. From its initial conception, the Agenda for Connectivity in the Americas has unquestionably been one of CITEL's

most important accomplishments of recent years. It has received decisive support from the Member States and Associate Members of CITELE, the Permanent Council of the OAS, the 2002 World Telecommunication Development Conference, and the 2002 Plenipotentiary Conference. It may therefore be expected that by the Fourth Summit of the Americas, several specimen agendas or national strategic plans will have been developed that will provide the peoples of our Hemisphere with the best tool yet to promote their development.

The preparatory process for the World Summit on the Information Society (WSIS) has entered a decisive stage, as the meeting for Latin America and the Caribbean will be held in the Dominican Republic, January 29-31, 2003. COM/CITELE invited the OAS Secretary General to forward to the meeting a series of telecommunication objectives, among them, the need to modernize telecommunication infrastructure and to provide greater access to telecommunication services through policies promoting universal access, development of human resource skills to support connectivity, and the creation of a culture of cyber security to protect telecommunications infrastructure.

In 2002, in the framework of COM/CITELE, the common inter-American Proposals were developed that were presented and, for the most part, adopted, at the 2002 World Telecommunication Development Conference (WTDC-2002) and at the 2002 ITU Plenipotentiary Conference (PP-02). CITELE has thus ensured that the voice of the Americas region will be heard within the International Telecommunication Union world forum.

The objective of the WTDC is to establish priorities, strategies, and action plans for ICT development to guide and direct the work of the ITU's Telecommunication Development Bureau (BDT). CITELE presented proposals regarding, among other things, the Agenda for Connectivity in the Americas and Plan of Action of Quito, aspects to be implemented in a plan to develop telecommunications for indigenous peoples, coordinated implementation of the IMT-2000 in the Americas region, implementation of regional tele-health programs, the Inter-American Tele-Health Network, and regional tele-education programs. The Plenipotentiary Conference is the highest body of the International Telecommunication Union (ITU). It meets every four years and establishes the Union's general policy, adopts five-year strategic and financial plans, elects the officers of the ITU, and determines the ITU's capacity to contribute to the development of matters such as convergence, telephone tariffs, the Internet, universal service, and e-commerce. The proposals presented by CITELE to PP-02 related to, among other things, support for the connectivity program, strengthening the ITU regional presence, financial and budgetary matters, election procedure, and the ITU Strategic Plan.

In addition, a Connectivity Initiatives Management Group was established to interact, through the ITU Regional Office, with ITU/BDT and other interested organizations to implement projects emanating from these initiatives. This group will identify projects and promote mechanisms for cooperation with international and regional finance organizations and mechanisms for partnership with the private sector and other interested entities to enable the projects identified to be implemented and implementation activities to be coordinated.

### **3.3 Permanent Consultative Committee I**

Permanent Consultative Committee I was restructured at the Third Regular Meeting of the CITELE Assembly. On that occasion, it was established that CCP.I would act as a technical advisory body of CITELE for telecommunication equipment certification processes, tariffing principles, and coordination of network standards and telecommunication services, thereby seeking to ensure the interoperability of such networks and services within the region.

The activities of CCP.I will be divided into two periods: January-August 2002 and September-December 2002.

#### **Officers:**

##### **January-August 2002**

Chair:	Mrs. Angela Montoya Holguín (Colombia)
Alternate Chair:	Mr. Félix Castro Rojas (Colombia)
Vice-Chair:	Mr. João Fagundes Albernaz (Brazil)

##### **September-December 2002**

Chair:	Mrs. Martha Elena Pinto de De Hart (Colombia)
Alternate Chair:	Mr. Félix Castro Rojas (Colombia)
Vice-Chair:	Mr. Marcos Bafutto (Brazil)

January-August 2002: The meeting of CCP.I in Montevideo, Uruguay, May 27-30, 2002. Notable results of that meeting were progress made in implementing a Mutual Recognition Agreement (MRA) on telecommunication equipment; revising the book "Information Infrastructure in the Americas"; establishing a program on identification of the offense of mobile terminal cloning; and planning the publication of a reference book on tele-medicine.

Since August 2002: The first meeting of CCP.I following the Third Regular Meeting of the CITELE Assembly was held in Brasilia, Brazil, November 4-8, 2002. The strategy of CCP.I at this point became to ensure that CITELE remained a lead body in coordinating telecommunication standards within the region in response to market demand and technological developments. Based on the mandate received at the Third Regular Meeting of the CITELE Assembly, the Committee organized its work so as to focus its attention on: standards coordination, advanced network technologies and services, certification processes and implementation of the MRA, economic aspects and tariffing principles, the preparatory work for the World Conference on International Telecommunications Conference, and the preparatory work for the ITU World Telecommunication Standardization Conference.

### **3.4 Permanent Consultative Committee II**

At the Third Regular Meeting of the CITELE Assembly, Permanent Consultative Committees II and III were merged into a single Committee: CCP.II: Radiocommunications, including Broadcasting. The activities of the two committees will be divided into two periods: January-August 2002 and September-December 2002.

#### **3.4.1 Permanent Consultative Committee II: Broadcasting (PCC.II) (January-August 2002)**

**Officers:**

Chair: Mr. Raúl Zóccola (Uruguay)  
Vice-Chair: Mr. Winston Hay (Jamaica)

The Ninth Meeting of this Committee was held in Fortaleza, Brazil, July 15-19, 2002, in conjunction with the Twenty-first Meeting of PCC.III. In the first two days, a forum on digital broadcasting standards was held, which included sessions on digital sound broadcasting (DSB) and digital television. Presentations were given on the world's three digital systems (the United States, European, and Japanese) and on details of advances with these systems, thereby affording an excellent opportunity for the countries of the Americas to obtain high-level information about such technologies.

Subsequently, a regular meeting of this Committee was held. Noteworthy results of the meeting were the adoption of a recommendation to promote the exchange of information of importance to member states in selecting the most appropriate Digital Terrestrial Television Broadcasting (DTTB) technology, including the necessary migration studies, economic and social aspects, etc.

With respect to the incompatibilities of the 1981 Rio de Janeiro Plan, as was indicated at the earlier meeting, it was felt that more time, appropriate material, and confirmed availability of suitable technical staff were needed to prepare the corresponding studies. Based on such considerations, a resolution was approved to promote, in the framework of the Third Regular Meeting of the CITELE Assembly, the final draft of the resolution on incompatibilities of the 1981 Rio de Janeiro Plan.

A joint meeting of PCC.II and PCC.III was also held to prepare for WRC-03. At that meeting, progress was made with the work and the time reduced for study of the broadcasting aspects to be considered at this Conference.

Pursuant to a resolution of the Third Regular Meeting of the CITELE Assembly, Committees PCC.II and PCC.III were merged.

#### **3.4.2 Permanent Consultative Committee III: Radiocommunications (January-August 2002)**

**Officers:**

Chair: Mr. Fernando Carrillo (Mexico)  
Vice-Chair: Mr. Marcos Bafutto (Brazil)

The Twenty-first Meeting of this Committee was held July 15-19, 2002 in Fortaleza, Brazil, in conjunction with the Ninth Meeting of PCC.II.

The Working Group on Terrestrial Fixed and Mobile Radiocommunication Services, which had focused its attention on the principles and frequency provisions for IMT-2000 and third generation (3G) systems, completed this activity and a recommendation was approved on frequency provisions for IMT-2000 for the 806-960 MHz, 1710-2025 MHz, and 2110-2200 MHz bands. The objective is to ensure that, insofar as possible, the CITELE Administrations are able to identify in harmonized fashion the frequency bands for the aforementioned systems.

At the Third Summit of the Americas, the Heads of State and Government requested CITELE to study the possibility of simplifying satellite system licensing procedures. A report is being prepared on satellite system regulations and procedures for obtaining VSAT licenses in the Americas in order to identify common procedures used in the region that could assist Administrations in developing or simplifying national procedures.

In 1997, PCC.III implemented a program to compile information on spectrum allocation in the member states, with support from the ITU's Regional Bureau for the Americas Region. On CITELE's Web page (<http://www.citel.oas.org>), the program enabling spectrum allocation in the Member States in the 137 MHz-400 GHz range to be obtained is fully operational and freely accessible. At the time of presentation of this report, the database included information on national frequency allocations for 32 of the 34 OAS member states as well as, for reference, the International Frequency Allocation Table and the European Allocation Table.

The Committee has participated as an observer in different meetings of other regional organizations in order to exchange views and information on progress made with respect to the preparatory work for the 2003 World Radiocommunication Conference.

### **3.4.3 Permanent Consultative Committee III: Radiocommunications including Broadcasting (as of August 2002)**

#### **Officers:**

Chair: Mr. Jesse Chacón (Venezuela)

In order to move forward with the preparatory work for the upcoming 2003 World Radiocommunication Conference, a meeting of the Working Group Relative to CITELE's Preparations for Regional and World Radiocommunication Conferences of PCC.II was organized for December 9-11, 2002 in Buenos Aires, Argentina. The meeting was of paramount importance as, at it, the results of the ITU's Second Conference Preparatory Meeting (CPM) were studied. This led to the enhancement of efforts to consolidate views and inter-American proposals for the benefit of the Americas region.

As of the date of publication of this Report, there were over 70 Inter-American Proposals on topics ranging from calls made over amateur radio; to expansion of secondary allocation to mobile satellite service (land-space) in the 14-14.5 GHz band to enable mobile aeronautical services to operate by satellite; to sharing between non-GSO and GSO systems; to spectrum requirements in the

FSS service bands below 17 GHz for telemetry, tracking, and telecommand of FSS networks operating with service links in the frequency bands above 17 GHz.

The First Meeting of this Committee following the restructuring authorized at the Third Regular Meeting of the CITELE Assembly is scheduled for February 2003.

#### **4. Summit of the Americas**

Based on the decisions taken at the Third Summit of the Americas of 2001, CITELE has prepared a draft Agenda for Connectivity in the Americas and an associated Plan of Action. These documents were presented to the CITELE Assembly at its Regular Meeting of August 2002, for its study and approval. The Assembly decided to refer these documents to the Secretariat for the Summits Process for implementation. Activities within CITELE will continue to focus on those items in the Plan of Action that relate to its mandate.

#### **5. Activities of the Secretariat**

The main duties and responsibilities of the Secretariat are defined in Articles 25, 26, and 27 of the CITELE Statute and in Article 88 of the CITELE Regulations.

In May 2002, the OAS General Secretariat designated the Executive Secretary of CITELE as its representative to the *Institute for Connectivity in the Americas (ICA)*. Work done in this area is a result of the Summit of the Americas held in Quebec City in 2001, and is an additional responsibility assigned to the Executive Secretary.

##### **5.1 Improvement of the procedures of CITELE**

Work continues to update CITELE's new Web page (<http://www.citel.oas.org>). A system for recording site visits was implemented to provide a more complete view of who site visitors are and how they use it. The principal Internet search guides have developed an index for the page and its contents.

Wireless access to documents at meetings of CITELE was also implemented, thereby substantially reducing the cost of meetings.

##### **5.2 CITELE's representation in other forums**

The Secretariat participated in the following meetings not included on the regular schedule of CITELE's activities.

ITU World Telecommunication Development Conference	Istanbul, Turkey March 18-27, 2002	Clovis Baptista
Fourth Space Conference of the Americas	Cartagena, Colombia, May 14-17, 2002	Clovis Baptista
Second infrastructure regulation and policy workshop	Barbados, June 12-13, 2002	Clovis Baptista

ITU Plenipotentiary Conference	Marrakech, Morocco September 23–October 18, 2002	Clovis Baptista
ITU Course – Network Security	Guatemala City, Guatemala, October 30-31, 2002	Clovis Baptista
Meeting of the <i>Institute for Connectivity in the Americas</i>	Ottawa, Ontario; Canada November 20-22, 2002	Clovis Baptista
26th annual C/LAA Conference	Miami, Florida, United States December 2-5, 2002	Clovis Baptista

## **6. Cooperative relations with regional and international organizations**

CITEL cooperation with international and regional organizations continues to grow as a means to improve efficiency, avoid duplication of effort, and reduce time for resolving disputes arising from premature discussion of different issues. Through the collective efforts of the Permanent Consultative Committees of CITEL, the Organization has gained considerable international recognition, as is attested by the number of cooperation agreements that have been concluded. CITEL has entered into agreements with AHCIET, ALACEL, C/LAA, CEPT, ETSI, ASETA, Committee T1 (United States), TIA (United States), UPAEP, and RCC (Western Europe). Negotiations are under way for agreements with CREAD, ATU (Africa), and the IAF. Also to be noted are cooperation activities carried out with the International Telecommunication Union (ITU) and the Asia-Pacific Telecommunity (APT).

The most important joint activities with the ITU were cooperation on the design and publication of a reference book on tele-education in the Americas and an agreement to continue cooperation in preparing a reference book on tele-medicine in the Americas.

The Executive Secretary has entered into dialogue with APEC to ensure frank discussion and the exchange of experiences. With respect to the implementation of the MRA developed in PCC.I, CITEL and APEC individually identified the persons able to facilitate this kind of dialogue. With respect to the preparatory activities for the ITU World Radiocommunication Conferences, the coordination process with APT and CEPT is now ongoing and continues to improve.

## **7. Status of international conventions sponsored by CITEL**

### **7.1 Lima Convention**

The Inter-American Convention on Amateur Service was adopted in Lima, Peru, in 1987, at the Fifth Inter-American Telecommunication Conference [CITEL/RES.130 (V-87)] and amended in 1988, at the First Special Meeting of CITEL [CITEL/RES.141 (I/E-88)], to facilitate full participation by CITEL Member States. This Convention provides for the use of amateur radio service by nationals of a Member State in the territory of another Member State.

The Lima Convention came into force on February 21, 1990. The General Secretariat of the OAS is the depository for the original instrument, and for the instruments of ratification and accession thereto.

Signatory countries	Date	RA/AC/AD	Date of deposit of Instrument
Argentina	08/14/87	03/11/90 RA	12/06/90
Bolivia	08/14/87		
Brazil	08/14/87		
Canada		04/06/89 AP	05/18/89

RA= ratification

AC= acceptance

AD= accession

The signatures not subject to ratification, approval, or acceptance (under Articles 7.a and 10 of the Convention, these countries are Parties to the Convention) are: Argentina, Bolivia, Brazil, Colombia, Chile, Haiti, Peru, and Suriname.

The signatures subject to ratification, approval, or acceptance (under Article 7.b of the Convention) are: United States and Uruguay.

## **7.2 Inter-American Convention on the International Amateur Radio Permit (IARP)**

This was approved at the Second Meeting of CITEL's Permanent Executive Committee, held in December 1994 [COM/CITEL/RES.5 (II-94)]. It was subsequently adopted in Montrouis, Haiti at the twenty-fifth regular session of the General Assembly [AG/RES.1316 (XXV-O/95)].

This convention provides for temporary operation of amateur radio stations in one member state by persons holding IARP permits issued by another member state without need for further review. Any member state may issue permits to its citizens to operate in another member state. The IARP Convention came into force on February 23, 1996. The General Secretariat of the OAS is the depository for its instruments of ratification, acceptance, and accession.

<b>Signatory countries</b>	<b>Date of signature</b>	<b>RA/AC/AD</b>	<b>Date of deposit of instrument</b>

Venezuela	02/05/96		

## **7.3 Protocol of Amendment to the Inter-American Convention on the International Amateur Radio Permit (IARP)**

At the Third Regular Meeting of the CITEL Assembly, a Protocol to the IARP Convention was adopted that was designed to grant holders of the CEPT Radio Amateur License of the member countries of the European Conference of Postal and Telecommunications Administrations (CEPT) that have implemented CEPT's Recommendation T/R 61-01, "CEPT Radio Amateur License," the same rights and privileges granted to IARP holders of CITEL Member States that become States Parties to the Protocol, while CEPT extends to holders of IARPs the same privileges and exemptions granted to holders of CEPT Radio Amateur Licenses of the member countries of CEPT that have implemented the aforementioned Recommendation.

The draft Protocol is attached to this Report and will be forwarded to the OAS General Assembly at its regular session to be held in 2003 for possible adoption, so that the Protocol may be opened for signature. This new procedure will reduce work to be done by the countries in this area, and thus the costs involved, and will be indispensable, particularly in cases of emergency.

## 8. Training activities sponsored by CITEL/OAS

The increase in the number of regulatory bodies in the member states has meant that assistance to such bodies in the form of training has become a priority CITEL activity. In 2002, pursuant to resolution COM/CITEL RES. 125 (X-01), the Inter-American Telecommunication Commission sponsored four training courses (divided into 13 groups of participants so that optimal benefit would be derived from the courses) utilizing the budgetary allocation for fellowships for 2001 and 2002. The year 2002 was the first time distance education courses were offered by CITEL.

The courses were:

- ***Distance education course: “Regulating New IP Services and Applications”***  
Course offered by the Center of Excellence for the Americas Region of the International Telecommunication Union (ITU) through the Excellence Network Node and CITEL Regional Training Center, the *Instituto Nacional de Investigación y Capacitación de Telecomunicaciones del Perú* (INICTEL).
- ***Distance education course: “Public Network Security-Technical Issues”***  
Course offered by the International Telecommunication Union.
- ***Distance education course: “Network Interconnection”***  
Course offered by the Center of Excellence for the Americas Region of the International Telecommunication Union (ITU) through the Excellence Network Node and CITEL Regional Training Center, the *Asociación Colombiana de Ingenieros* (ACIEM).
- ***Seminar-workshop on public network security, strategic and management issues***  
Course offered by the International Telecommunication Union with generous support from the Telecommunication Superintendency of Guatemala.

COM/CITEL has approved the following courses to be held in 2003:

- ***Distance education course: “Regulating New IP Services and Applications,”*** offered by INICTEL through the ITU Center of Excellence for the Americas Region.
- ***Distance education course: “Network Interconnection” (level one),*** offered by ACIEM through the ITU Center of Excellence for the Americas Region.
- ***Distance education course: “Network Interconnection” (level two),*** offered by ACIEM through the ITU Center of Excellence for the Americas Region.
- ***Distance education course: “Spectrum Management,”*** offered by the ITU Center of Excellence for the Americas region.
- ***Distance education course: “Planning Mobile Networks,”*** offered by the Catholic University of Uruguay and ANTEL of Uruguay.

- As an alternative, the *Distance education course: “Basic Telecommunications for non-Engineers”* will be offered if the corresponding agreement is concluded. The course would be offered by COMTELCA.

In addition, through the 2003 Professional Development Scholarships of the Inter-American Agency for Cooperation and Development (IACD), the following courses were offered:

- *Strategic and Business Planning of Telecommunications.* Classroom course offered by the ITU Center of Excellence for the Americas Region in Costa Rica. Language of instruction: Spanish.
- *Telecommunication Price and Cost Analysis.* Classroom course offered by COFETEL-Mexico. (Maximum number of scholarship recipients: five). Language of instruction: Spanish.
- *Regulatory and Privatization Issues in Telecommunications:* Dates: July 21-25, 2003. USTII/Federal Communications Commission (FCC), Washington, D.C., USA. Language of instruction: English.

Summary of the distance education courses offered in 2002

Sub-total	192.6	192.6	192.6
Executive Secretariat staff	460.8	501.7	501.78
<b>TOTAL</b>	<b>653.4</b>	<b>694.3</b>	<b>694.3</b>

1. Fellow cancelled enrollment for reasons beyond his control.
2. Fellow cancelled enrollment for reasons beyond his control.
3. Fellow cancelled enrollment for reasons beyond his control

## 9.2 Budget for 2003

At its thirty-second regular session, held in June 2002, the OAS General Assembly approved an allocation to CITEL for 2003 of US\$694.6 from the Regular Fund.

(in US\$ thousands)	Allocation for 2002	Allocation for 2003	Percentage variation between 2002 and 2003 budget
Personnel costs	460.8	501.8	
Activity costs	192.6	192.8	
<b>TOTAL</b>	<b>653.4</b>	<b>694.6</b>	<b>9.41</b>

## 9.3 Fellowships

The CITEL allocation was US\$46,700.

## 9.4 External Funding

Any recognized operating agency, scientific, or industrial organization may, with the approval of the corresponding Member State of CITEL, become an Associate Member of a Permanent Consultative Committee. Applications from entities wishing to become Associate Members of CCPs are forwarded by the Member State together with an indication of the contributory unit selected. Since January 1, 1999, the value of a contributory unit has been US\$2,000.

Invoices for year 2002 were distributed in a timely fashion prior to the consideration given to restructuring the CCPs, a mandate issued by the Third Regular Meeting of the CITEL Assembly. The tables below are based on the former structure of the Committees (PCC.I; PCC.II; and PCC.III). As of December 31, 2002, CITEL had received a total of US\$339,150 from the Associate Members, distributed as follows:

	PCC.I	PCC.II	PCC.III
<b>2002</b>	129,630	12,921	166,462
<b>1995 – 2001</b>	15,820	0	14,317
<b>TOTAL:</b>	<b>145,450</b>	<b>12,921</b>	<b>180,779</b>

For 2002, contributions in the amount of US\$155,091 are outstanding:

	PCC.I	PCC.II	PCC.III
<b>2002</b>	53,266	13,054	88,771

In keeping with the new structure of the Permanent Consultative Committees of CITEL, CITEL has 204 Associate Members (CCP.I, 82 and CCP.II, 122 Associate Members), which contribute 209 units. It should be noted that there are outstanding contribution payments from 1995 to 2001, as follows:

US\$	PCC.I	PCC.II	PCC.III	TOTAL
<b>1995-2001</b>	106,519	22,633	166,221	295,373

The table below shows the use made by each PCC of external funds, expressed in US\$, as of December 31, 2002:

Committee	INCOME	EXPENDITURE	BALANCE
PCC.I			
Carryover as of 1/1/02	124,388		
Income as of 12/31/02	145,450		
ITU Contribution	<u>4,980</u>		
Subtotal	274,818	214,485	60,333
PCC.II			
Carryover as of 1/1/02	16,023		
Income as of 12/31/02	12,921		
Subtotal	28,944	28,944	0
PCC.III			
Carryover as of 1/1/02	65,032		
Income as of 12/31/02	180,779		
Motorola Contribution	<u>15,000</u>		
Subtotal	260,811	230,654	30,157
<b>TOTAL</b>	<b>564,573</b>	<b>474,083</b>	<b>90,490</b>

**10. Schedule of CITEI for 2003**

Year	Date	Meeting	Place
2003	February 3-7, 2003	I Meeting of CCP.II	Orlando, Florida, United States
	April 7-10, 2003	II Meeting of CCP.I	Ecuador
	May 5-16, 2003	VIII Meeting of the Working Group to Prepare for the Meetings of the ITU Council	Geneva, Switzerland
	June 9-July 4, 2003	Working Group for the Preparation of CITEI for Regional and World Radiocommunication Conferences	Geneva, Switzerland
	August 11-13, 2003	Meeting of the Steering Committee	Washington, D.C., United States
	August 14-15, 2003	IX Meeting of the Working Group to Prepare for the Meetings of the ITU Council	Washington, D.C., United States
	August 14-15, 2003	II Meeting of the Conference Preparatory Working Group	Washington, D.C., United States
	September 22-26, 2003	III Meeting of CCP.I	Mexico

Year	Date	Meeting	Place
	October 20-24, 2003	II Meeting of CCP.II	El Salvador
	November 3-6, 2003	XIII Meeting of COM/CITEL	Argentina
	November 3-6, 2003	IX Meeting of the Working Group to Prepare for the Meetings of the ITU Council	Argentina
	November 3-6, 2003	III Meeting of the Conference Preparatory Working Group	Argentina

#### **11. Resolutions to be sent to the OAS General Assembly**

Three draft resolutions that CITEL wishes to present to the General Assembly at its regular session to be held in 2003 are listed below:

- Amendment to the Inter-American Convention on an International Amateur Radio Permit;
- Amendments to the Statute of the Inter-American Telecommunication Commission; and
- Activities of the Inter-American Telecommunication Commission during 2002.

AG/RES. YYY (XXXIII-O/03)

#### **AMENDMENT TO THE INTER-AMERICAN CONVENTION ON AN INTERNATIONAL AMATEUR RADIO PERMIT**

THE GENERAL ASSEMBLY,

HAVING SEEN:

CITEL resolution RES. 32 (III-02) approved at the Third Assembly of CITEL held in Washington, DC, United States, August 12 to 16, 2002;

CONSIDERING:

That the Assembly of CITEL serves as an Inter-American Forum in which the highest telecommunications authorities of the CITEL Member States share opinions and experiences and make appropriate decisions to direct their activities towards achieving CITEL's assigned objectives and mandates; and

That COM/CITEL, as CITEL's executive organ, is authorized, in conjunction with CITEL's Secretariat, to prepare drafts of inter-American conventions and treaties relating to telecommunications in the Americas;

RECOGNIZING:

That CITEL's objective is to facilitate and promote, by all means available to it, the continuing development of telecommunications in the American States; and

CONVINCED:

That the Protocol to the IARP Convention will promote and facilitate through multilateral licensing mechanisms, the valuable interchange of ideas and technology among amateur radio operations in Europe and the Americas,

RESOLVES:

To adopt the following Protocol to the Inter-American Convention on an International Amateur Radio Permit.

PROTOCOL OF AMENDMENT TO THE  
INTER-AMERICAN CONVENTION ON AN INTERNATIONAL  
AMATEUR RADIO PERMIT

THE MEMBER STATES OF THE ORGANIZATION OF AMERICAN STATES,

CONSIDERING that the European Conference of Postal and Telecommunications Administrations (“CEPT”) permits holders of the CEPT Radio Amateur License from any CEPT Member States that has implemented CEPT’s Recommendation T/R 61 to operate temporarily in all other CEPT Member States that have implemented that Recommendation without having to obtain a license from those other states;

TAKING INTO ACCOUNT that the CEPT Radio Amateur License is similar in scope and purpose to the International Amateur Radio Permit (“IARP”) issued and recognized by the State Parties to the Inter-American Convention on an International Amateur Radio Permit (“IARP Convention”);

BEARING IN MIND that substantial benefits in reduced administrative and logistical costs can be realized by allowing amateur radio operators with either the CEPT Radio Amateur License or the IARP to operate temporarily in both CEPT member states and IARP State Parties without having to obtain additional licenses and without having to pay additional duties, taxes and fees; and

CONSIDERING that CEPT is authorized to obligate its member states to provide amateur radio operations from non-CEPT states the same exemption from licensing and other related requirements enjoyed by holders of the CEPT Radio Amateur License and has expressed its interest in doing so for IARP licensees from State Parties to the IARP Convention who sign an agreement with CEPT for that purpose.

HAVE AGREED UPON THE FOLLOWING:

ARTICLE I

Articles 5-12 of the IARP Convention shall be renumbered Articles 6-13, respectively.

## ARTICLE II

The new Article 5 of the IARP Convention shall state as follows:

Reciprocity with Member States of the European Conference of Postal and Telecommunications Administration

### ARTICLE 5

Radio amateurs holding an amateur radio license from a Member State of the European Conference of Postal and Telecommunications Administration (“CEPT Radio Amateur License”) which has implemented Recommendation TR/ 61-01 of the Conference of Postal and Telecommunications Administration (“CEPT”) shall be entitled to the same rights and privileges enjoyed by holders of the IARP, provided, however, that CEPT accords all holders of the IARP the same rights and privileges enjoyed by holders of the CEPT Radio Amateur License in CEPT Member States that have implemented Recommendation TR/61-10. Such rights and privileges granted under this Article shall be subject to the corresponding conditions established in the IARP Convention and TR/61/01 respectively.

## ARTICLE III

For purposes of applying the new Article 5 of the IARP Convention set out in Article II of this Protocol above, the term “holders of the IARP” means only those holders of the IARP from State Parties to this Protocol.

## ARTICLE IV

State Parties to the IARP Convention may become State Parties to this Protocol by:

- a. Signature not subject to ratification, acceptance, or approval;
- b. Signature subject to ratification, acceptance or approval followed by ratification, acceptance or approval; or
- c. Accession.

Ratification, acceptance, approval, or accession shall be effected by deposit of the appropriate instrument with the General Secretariat of the Organization of American States in its capacity as a depository.

ARTICLE V

Each State may make reservations to this Protocol at the time of signature, ratification, acceptance, approval, or accession, provided that each reservation concerns at least one specific provision and is not incompatible with the objectives and purposes of the Convention.

ARTICLE VI

This Protocol shall enter into force on the thirtieth day following the date on which two States have become Parties to it. For the remaining States, this Protocol shall enter into force on the thirtieth day after their compliance with the procedures established in Article IV.

ARTICLE VII

This Protocol shall remain in force indefinitely, but may be terminated by agreement of the State Parties. Any of the State Parties to this Protocol may denounce it. The instrument of denunciation shall be deposited with the General Secretariat of the Organization of American States. After one year from the date of deposit of the instrument of denunciation, the Protocol shall no longer be in effect for the denouncing State Party, but shall remain in effect for the other State Parties.

ARTICLE VIII

The original instrument of this Protocol, the English, French, Portuguese, and Spanish texts are equally authentic, shall be deposited with the General Secretariat of the Organization of American States, which shall forward a certified copy of its text to the Secretariat of the United Nations for registration and publication in accordance with Article 102 of its Charter, and to the General Secretariat of the International Telecommunication Union.

The General Secretariat of the Organization of American States shall notify the State Parties when it receives: the signatures, deposits of instruments of ratification, acceptance, approval, accession and denunciation, and any reservations.

DONE IN \_\_\_\_\_, the \_\_\_\_\_ day of \_\_\_\_\_, two thousand and three.

AG/RES. YYY (XXXIII-O/03)

AMENDMENTS TO THE STATUTE OF THE INTER-AMERICAN  
TELECOMMUNICATION COMMISSION

THE GENERAL ASSEMBLY,

HAVING SEEN resolution CITEL/RES. 34 (III-02), adopted at the third regular meeting of the Assembly of the Inter-American Telecommunication Commission (CITEL), which contains amendments to Articles 23 and 24 of the Statute of CITEL;

CONSIDERING:

That, pursuant to Article 34 of the Statute of CITEL, it falls to the General Assembly of the Organization to amend the Statute of CITEL, at its own initiative or upon CITEL's request; and

That, in resolution CITEL/RES. 34 (III-02), at its third regular meeting, the Assembly of CITEL requested the General Assembly to amend Articles 7, 17, 23, and 24 of the Statute of CITEL in the manner and for the reasons expressed therein,

RESOLVES:

1. To approve the amendments to the Statute of CITEL provided in the appendix.

**APPENDIX**

**AMENDMENTS TO THE STATUTE OF CITEL**

**Article 7  
Participation in the CITEL Assembly**

...

- f. International and national organizations that are parties to agreements or arrangements establishing relations of cooperation with the Organization, with its organs, organizations, or agencies, when such agreements or arrangements provide for participation of observers.

...

- h. The Associate Members of the Permanent Consultative Committees.

**Article 17  
Functions of COM/CITEL**

The functions of COM/CITEL are the following:

...

- m. To review and approve a work program and an annual proposed budget for CITEL in pursuance of the provisions of Article 112.c of the Charter of the Organization; ensuring the strictest possible economy but mindful of the obligation upon CITEL to achieve satisfactory results from the work programs undertaken.

**Article 23  
Structure of the Permanent Consultative Committees  
Organization**

The CITEL Assembly shall organize the Permanent Consultative Committees it considers necessary to attain the objectives defined in Article 3 and shall elect the host countries of the Permanent Consultative Committees, observing to the extent possible, an equitable geographic distribution.

**Article 24  
Participation in the Permanent Consultative Committees:  
Members, Associate Members, and Observers**

Member States and Associate Members of CITEL, whose rights and obligations are defined in this Statute, collaborate with a view to attaining the objectives of CITEL.

### **Associate Members**

1. Any agency, organization, or institution related to the telecommunications industry, which has legal personality, with the approval of the corresponding Member State of CITEL, may become an associate member of a Permanent Consultative Committee. The Member State shall notify the Chairman of COM/CITEL in writing of the names of the agencies, organizations, and institutions it has approved. An agency, organization, or institution shall cease to be an Associate Member in the event that approval is withdrawn by the Member State.
2. An international or regional inter-governmental organization with multiple memberships of States of the Americas that is related to telecommunications and has legal personality may become an Associate Member of a Permanent Consultative Committee with the approval of COM/CITEL. This international or regional organization shall cease to be an Associate Member in the event that approval is withdrawn by the COM/CITEL.
3. Associate Members of a Permanent Consultative Committee may fully participate in all the activities of that Permanent Consultative Committee, with voice but without vote. They may present technical papers and receive the documents of the Committee to which they pertain.

DRAFT RESOLUTION

AG/RES. YYYY (XXXIII-O/03)

ACTIVITIES OF THE INTER-AMERICAN TELECOMMUNICATION COMMISSION  
DURING 2002

THE GENERAL ASSEMBLY,

HAVING SEEN the Annual Report submitted by the Inter-American Telecommunication Commission (CITEL);

BEARING IN MIND that agreement was reached at the Third Regular Meeting of the Assembly of CITEL held August 12-16, 2002, in Washington, D.C., on principles for continuing to strengthen CITEL, so it can fully meet its obligations,

CONSIDERING:

That in complying with its mandates, during 2002 the Inter-American Telecommunication Commission pursued diverse activities, among which the following are especially noteworthy:

1. Development of an Agenda for Connectivity and a Plan of Action to address the issue of Connectivity in the Americas and to guide the development of individual Connectivity Agendas and Plans of Action for countries which may find it appropriate;
2. Preparation and distribution of publications on the Global Information Infrastructure and on Tele-education in the Americas;
3. Advanced implementation of the Mutual Recognition Agreement on Conformity Assessment of telecommunication equipments (MRA) with eight countries participating or having indicated they will participate during 2003 in Phase I, which includes procedures for Mutual Recognition of Testing Laboratories as Conformity Assessment Bodies and Mutual Acceptance of Test Reports and two countries participating in Phase II, Procedures for Mutual Recognition of Certification Bodies as Conformity Assessment Bodies and Mutual Acceptance of Equipment Certifications;
4. Publication of CITEL's own magazine, which highlights the activities of the Commission and the current issues affecting the Telecommunications Community in the Americas;
5. Development of common inter-American Proposals which were submitted to and adopted by the 2002 World Telecommunication Development Conference and the 2002 Plenipotentiary Conference of the International Telecommunication Union. In

this way, CITELE has ensured that the Region of the Americas has a strong voice in the Global Forum of the International Telecommunication Union;

6. Diverse activities to ensure the coordinated allocation of the spectrum in the region, including the continuous updating of the spectrum usage database available on the CITELE web page in French, English and Spanish;
7. Partnerships established through Cooperation Agreements with nine telecommunication organizations from various parts of the world to improve coordination with other telecommunications organizations for the development and implementation of effective and sustainable programs. These agreements were not an initiative of CITELE and therefore are indicative of the status CITELE has acquired in the eyes of the telecommunication community throughout the world.
8. Provision of appropriate environment for its Member States to exchange their experiences and best practices, making it possible to keep updated legal and regulatory frameworks that are predictable, consistent, nondiscriminatory and transparent and will contribute to the development of telecommunications and universal access thereto.
9. Experiences were shared during the training courses and more than 200 fellowships granted to people in the Americas on telecommunication issues essential to the region. Relations with the Regional Training Centers of CITELE and the through the Center of Excellence for the Americas of the ITU were enhanced.
10. Improvement of working methods through a more competent handling of electronic documents.
11. Increasing the participation of associate members by fostering their activities and organizing seminars/workshops.

RESOLVES:

1. To commend the Inter-American Telecommunication Commission for its ongoing efforts to facilitate and promote the continuing development of telecommunications in the Hemisphere.
2. To take note of the important actions initiated and accomplished by the Inter-American Telecommunication Commission during 2002.
3. To request CITELE to submit a follow-up report to the thirty-fourth regular session of the General Assembly.

**APPENDIX B - TITLES OF RESOLUTIONS, RECOMMENDATIONS, AND DECISIONS  
ADOPTED IN 2002**

(Date: December 31, 2002)

**B.1 THIRD REGULAR MEETING OF THE ASSEMBLY OF CITEL**

**RESOLUTIONS**

CITEL/RES. 31 (III-02)	A New Approach to Resolving the Incompatibilities Resulting from the 1981 Regional ITU Conference on the AM Broadcasting Band
CITEL/RES. 32 (III-02)	Procedure for Recognition of the CITEL Inter-American Convention on the International Radio Amateur Permit (IARP) with the CEPT
CITEL/RES. 33 (III-02)	Implementation of the Agenda for Connectivity in the Americas
CITEL/RES. 34 (III-02)	Modification to the Statute and Regulations of CITEL
CITEL/RES. 35 (III-02)	Vice-Chair of COM/CITEL
CITEL/RES. 36 (III-02)	Election of the Chair for PCC.I
CITEL/RES. 37 (III-02)	Election of the Members of the Permanent Executive Committee
CITEL/RES. 38 (III-02)	Analysis and Strategy for Re-Engagement of Technical Participation in CITEL PCC.I
CITEL/RES. 39 (III-02)	Challenges of the Next Generation Network
CITEL/RES. 40 (III-02)	Contributions of CITEL Associate Members
CITEL/RES. 41 (III-02)	Updating of the Bluebook
CITEL/RES. 42 (III-02)	MRA Implementation
CITEL RES. 43 (III-02)	Establishment of the Permanent Consultative Committees
CITEL RES. 44 (III-02)	Strategic Plan Of CITEL For 2002-2006
CITEL RES. 45 (III-02)	Washington Declaration
CITEL RES. 46 (III-02)	Establishment of the CITEL Conference Preparatory Group to Address Regional Preparations for World Conferences and Meetings
CITEL RES. 47 (III-02)	Election of the Chair for PCC.II
CITEL RES. 48 (III-02)	Participation of Observers in CITEL Meetings

**RECOMMENDATIONS**

(No recommendations were approved in 2002)

**DECISIONS**

(No decisions were approved in 2002)

**B.2 PERMANENT EXECUTIVE COMMITTEE OF CITEL**

**RESOLUTIONS**

COM/CITEL/RES.138 (XII-02)	Implementation of Paperless Meetings
----------------------------	--------------------------------------

COM/CITEL/RES.139 (XII-02)	Approval of the Training Center of the National Telecommunications Administration and the School of Engineering and Technologies of the Catholic University of Uruguay as a CITEL Regional Training Center
COM/CITEL/RES.140 (XII-02)	Establishment of a General Coordination for the Development of Human Resources
COM/CITEL/RES.141 (XII-02)	Procedure to be Recognized by CITEL as a Regional Training Center
COM/CITEL/RES.142 (XII-02)	Approval of the Program of Courses to be given by CITEL for the Year 2003
COM/CITEL/RES.143 (XII-02)	Draft Agenda, Venue and Date of the XIII Meeting of COM/CITEL
COM/CITEL/RES.144 (XII-02)	Activities of CITEL during 2002
COM/CITEL/RES.145 (XII-02)	Updating of the Bluebook
COM/CITEL/RES.146 (XII-02)	Amendments to the Regulations of CITEL
COM/CITEL/RES.147 (XII-02)	Basic Support Conditions needed to hold CITEL Meetings
COM/CITEL/RES.148 (XII-02)	Implementation of the Agenda for Connectivity in the Americas and Plan of Action of Quito
COM/CITEL/RES.149 (XII-98)	Strategic Plan of CITEL 2002-2006
COM/CITEL/RES.150 (XII-02)	Participation of CITEL in a UPAEP Workshop on Electronic Commerce
COM/CITEL/RES.151 (XII-02)	CITEL and the World Summit on the Information Society
COM/CITEL/RES.152 (XII-02)	Establishment of a Group for Connectivity Initiatives Management
COM/CITEL/RES.153 (XII-02)	Approval of Observer Status for the Latin American Institute for Educational Communication ("ILCE")
COM/CITEL/RES.154 (XII-02)	Approval of the Plan of Operations for 2003

## **DECISIONS**

COM/CITEL/DEC. 31 (XII-02) UNTITLED
COM/CITEL/DEC. 32 (XII-02) UNTITLED

### **B.3. PERMANENT CONSULTATIVE COMMITTEE I**

#### **B.3.1 PUBLIC TELECOMMUNICATION SERVICES (PRIOR TO THE THIRD REGULAR MEETING OF THE CITEL ASSEMBLY)**

##### **RESOLUTIONS**

PCC.I/RES.148 (XVI-02)	Identification of the Crime of Cloning Mobile Terminals
PCC.I/RES.149 (XVI-02)	Coordination of the Activities of the PCC.I Working Groups with respect to WTDC-02 Results
PCC.I/RES.150 (XVI-02)	Creation of a Rapporteur Group to Prepare a Comprehensive Study on the Telecommunications Situation of the Indigenous People in America Within the Framework of the Work of the Working Group on Basic and Universal Telecommunication Services
PCC.I/RES.151 (XVI-02)	Terms of Reference for the Book of Telemedicine in the Americas
PCC.I/RES.152 (XVI-02)	Request for Information on Telemedicine
PCC.I/RES.153 (XVI-02)	Workshop on Wireless Emergency Services in the Americas
PCC.I/RES.154 (XVI-02)	Agenda, Venue and Date of the XVII Meeting of PCC.I
PCC.I/RES.155 (XVI-02)	Network Performance Objectives for IP-Based Services
PCC.I/RES.156 (XVI-02)	Inter-American MRA: Member States Schedule of Participation
PCC.I/RES.157 (XVI-02)	Suggestions for Action to be taken to give Transparency to Internet Access Services Provided in the Marketplace
PCC.I/RES.158 (XVI-02)	Call to Member Countries and Associate Members to Forward, as Requested, their Views and Requests Regarding CITEL'S Participation in the Framework of the WSIS
PCC.I/RES.159 (XVI-02)	Call to the Member Countries of CITEL to Contribute Information for the E-Americas Project
PCC.I/RES.160 (XVI-02)	Request to Member Countries and Associate Members of CITEL for Submission of Contributions to CITEL'S Electronic Forum Regarding International Agreements on Traffic Exchange in Internet Networks
PCC.I/RES.161 (XVI-02)	Working Scheme for the Study of Topics Regarding Free Competition
Pcc.I/RES.162 (Xvi-02)	Reply to the Questionnaire on Telecommunications Sector Indicators Year 2001
PCC.I/RES.163 (XVI-02)	Final Review and Approval of the Publication of the Book "Information Infrastructure in the Americas"

##### **RECOMMENDATIONS**

(No recommendations were approved in the period prior to the Third Regular Meeting of the CITEL Assembly)

## **DECISIONS**

(No decisions were approved in the period prior to the Third Regular Meeting of the CITEL Assembly)

### **B.3.2. PERMANENT CONSULTATIVE COMMITTEE I: TELECOMMUNICATION STANDARDIZATION (FOLLOWING THE THIRD REGULAR MEETING OF THE CITEL ASSEMBLY)**

## **RESOLUTIONS**

CCP.I-TEL/RES.1 (I-02)	Intelligent Networks Capability Set 4
CCP.I-TEL/RES.2 (I-02)	Approval of the Questionnaire for Preparing a Comprehensive Study on the Status of Telecommunications of Indigenous People in America
CCP.I-TEL/RES.3 (I-02)	Implementation of Tele-Education and Tele-Medicine Pilot Project Applied to Indigenous Communities
CCP.I-TEL/RES.4 (I-02)	Structure of PCC.I-TEL (Telecommunication Standardization) and Mandates for the Working Groups 2002-2006
CCP.I-TEL/RES.5 (I-02)	Structure and Terms of Reference of the Working Groups of CCPI-Tel: Telecommunication Standardization
CCP.I-TEL/RES.6 (I-02)	Termination of the Working Groups, Ad Hoc Group and Rapporteur Groups of CCPI-TEL
CCP.I-TEL/RES.7 (I-02)	Appointment of the Vice-Chair of CCP.I-TEL
CCP.I-TEL/RES.8 (I-02)	Agenda, Venue and Date of the II Meeting of CCP.I-TEL
CCP.I-TEL/RES.9 (I-02)	Recognition and Thanks of the Permanent Consultative Committee I of CITEL to Engineer William Moran
CCP.I-TEL/RES.10 (I-02)	To Forward to the XII Meeting of COM/CITEL the Report on the Activities Undertaken by the PCC.I Regarding the WSIS
CCP.I-TEL/RES.11 (I-02)	Presentation of MRA Related Information to Caribbean and Central American Members

## **RECOMMENDATIONS**

CCP.I-TEL/REC.1 (I-02)	Recommendations to the CITEL Member States for Adopting Measures Tending to the Development of a Telecommunication Infrastructure
------------------------	-----------------------------------------------------------------------------------------------------------------------------------

## **DECISIONS**

CCP.I-TEL/DEC.1 (I-02)	Establishment of an Advisory Committee for the Chair of CCP.I-TEL
------------------------	-------------------------------------------------------------------

## **B.4 PERMANENT CONSULTATIVE COMMITTEE II**

At the Third Regular Meeting of the CITEL Assembly, Permanent Consultative Committees II (Broadcasting) and Permanent Consultative Committee III (Radiocommunications) were merged and now constitute Permanent Consultative Committee II: Radiocommunications, including Broadcasting

### **B.4.1 PERMANENT CONSULTATIVE COMMITTEE II: BROADCASTING (PRIOR TO THE THIRD REGULAR MEETING OF THE CITEL ASSEMBLY)**

#### **RESOLUTIONS**

PCC.II/RES. 34 (IX-02)	Resolution of the Incompatibilities Resulting from the 1981 ITU Regional Conference On Am Broadcasting
PCC.II/RES.35 (IX-02)	Draft Agenda for the X Meeting of PCC.II

#### **RECOMMENDATIONS**

PCC.II REC. 1 (IX-01)	Capability Building on Long-Term Decision-Making Process for the Implementation of Digital Terrestrial Television Broadcasting by CITEL Administrations
-----------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------

#### **DECISIONS**

PCC.II/DEC.18 (IX-02)	UNTITLED
PCC.II/DEC.19 (IX-02)	UNTITLED
PCC.II/DEC.20 (IX-02)	UNTITLED

### **B.4.2 PERMANENT CONSULTATIVE COMMITTEE III: RADIOCOMMUNICATIONS (PRIOR TO THE THIRD REGULAR MEETING OF THE CITEL ASSEMBLY)**

#### **RESOLUTIONS**

PCC.III/RES.135 (XX-02)	Study on Feasibility for Implementing One Stop Shop (OSS) in the Americas
PCC.III/RES.136 (XX-02)	Agenda, Venue and Date of the XXI Meeting
PCC.III/RES.137 (XX-02)	Proposed Secondary Allocation to the Amateur Service in the Band 135.7 – 137.8 kHz
PCC.III/RES.138 (XXI-02)	Seminar on Broadband Services by Satellite Services
PCC.III/RES.139 (XXI-02)	New Data Base for Earth Station Antenna Patterns for Use in Sharing Studies with the Fixed-Satellite Service
PCC.III/RES.140 (XXI-02)	Procedure for Recognition of the CITEL International Amateur Radio Permit (IARP) with the CEPT
PCC.III/RES.141 (XXI-02)	Agenda, Venue and Date of the XXII Meeting

PCC.III/RES.142 (XXI-02) Joint Cooperation Between CITEL And AHCET on the Study of Technologies for Broadband Wireless Internet Access in the Americas

**RECOMMENDATIONS**

PCC.III/REC. 68 (XX-02) Restrictions to the Use of 3625-3700 MHZ and 5850-5925 MHZ Bands by the Tracking, Telemetry and Command (TT&C) Signals

PCC.III/REC. 69 (XXI-02) Views Towards Maximizing the Harmonization of the Frequency Arrangements

PCC.III/REC. 70 (XXI-02) Frequency Arrangements for IMT-2000 in the Bands 806 to 960 MHZ, 1710 to 2025 MHZ and 2110 to 2200 MHZ

**DECISIONS**

PCC.III/DEC.50 (XX-02) Untitled

PCC.III/DEC.51 (XX-02) Untitled

PCC.III/DEC.52 (XX-02) Untitled

PCC.III/DEC.53 (XXI-02) Untitled

PCC.III/DEC.54 (XXI-02) Untitled

PCC.III/DEC.55 (XXI-02) Untitled
