THE GENERAL ASSEMBLY,

HAVING SEEN:

Resolution AG/RES. 2440 (XXXIX-O/09), “Telecommunications Development in the Region to Reduce the Digital Divide,” by which the OAS General Assembly expressed its support for the Fifth Regular Meeting of the Assembly of CITEL, as well as its interest in representation of the member states of the Organization in that meeting by their highest-level governmental telecommunication authorities; and

That from March 8 to 11, 2010, the Fifth Regular Meeting of the Assembly of CITEL was held in Mexico City, where the Declaration of Mexico was adopted, which reiterates the shared desire to build an integrating and development-oriented information and knowledge-based society in the Americas region, as well as the Strategic Plan for 2010-2014, which indicates goals and actions so that these needs are fully translated into practical actions;

RECALLING that, in the Declaration of Santo Domingo: Good Governance and Development in the Knowledge-Based Society, the Ministers of Foreign Affairs and Heads of Delegation of the member states of the OAS request that “the organs, agencies, and entities of the Organization of American States (OAS) continue to support the incorporation of ICTs into national development plans,” and further request the OAS to continue, through its General Secretariat, in particular through its specialized commissions, such as CITEL, coordinating regional efforts to develop initiatives and identify additional resources to provide greater access to ICTs and their use and benefits, thus contributing to bridging the digital divide;

CONSIDERING:

That the environment of telecommunications and information and communication technologies (ICT) (hereinafter “telecommunications/ICTs”) is undergoing major change as a result of rapid technological progress, market globalization, and growing demand from users for integrated services adapted to their needs;

That telecommunications/ICTs are promoting economic growth, employment, and greater sustainable development in the region;

That the advance of global information infrastructure, specifically the development of the Internet protocol (IP)-based networks and, especially, the Internet, remains of fundamental importance, since it is an important force driving economic growth in the 21st century; and

That telecommunications/ICTs are essential at all stages—disaster prevention, preparedness, response, and relief operations—and provide the necessary means and links to mitigate the effects of disasters, whatever their nature;
AWARE that despite advances in regional connectivity, the digital divide persists in many member states, and that challenges are enormous, especially at a time when the region is slowly recovering from the economic crisis and from devastating natural disasters; and

RECOGNIZING:

That the establishment of national telecommunication policy and effective regulatory frameworks that promote the sustainable development of telecommunication/ICT services is essential for the integral development of the Americas;

That recent tragic events in the region clearly demonstrate the need for telecommunication/ICT services to contribute assistance in disaster relief operations so as to minimize risks to human life and meet the corresponding general needs for information and communication with the public in such situations;

That, as a result of the application and development of telecommunications/ICTs, new threats of different origins have arisen, such as threats to individual users resulting from viruses, spam, and identity theft; threats to businesses, governments, and other organizations through the exploitation of data storage vulnerabilities, industrial espionage, and threats to critical public infrastructure, including electronic communications networks, financial systems, and emergency services, which may compromise confidence and security in the use of these services by all users;

That such threats may also affect the maintenance of peace and the economic and social development of all member states, so that reliable telecommunication/ICT systems are essential;

That it is necessary to prepare proposals coordinated at the regional level, for presentation in international forums regarding matters that determine the strategy for telecommunication/ICT development in the region if the shared objectives of the member states in this area are to be achieved; and

That the OAS, through CITEL, is in an ideal position and has the necessary experience to serve as the forum for coordination, debate, and harmonization of national and regional telecommunication strategies and policy, as well as information exchange in this area,

RESOLVES:

1. To congratulate and thank the Government of Mexico for successfully hosting the Fifth Regular Meeting of the Assembly of the Inter-American Telecommunication Commission (CITEL).

2. To endorse the Declaration of Mexico, adopted on March 11, 2010 (see Appendix I), which is an integral part of this resolution.1

---

1. The Government of Nicaragua places on record its express reservation to the Declaration of the Fifth Summit of the Americas, held in Port of Spain, Trinidad and Tobago. During that event, Nicaragua expressed its view that the Declaration of the Fifth Summit of the Americas was unacceptable and inadequate as it did not resolve a number of matters that were extremely important for the Hemisphere and were still under discussion. Nor does Nicaragua accept that references may be made to that Declaration in the resolutions to be adopted by the OAS General Assembly. Nicaragua reaffirms that the items on the General Assembly agenda should be derived from the debates and deliberations of the Heads of State and Government in Trinidad and Tobago.
3. To urge CITEL to continue coordinating efforts to harmonize, develop, and improve telecommunication/ICTs and to continue to provide a platform where policymakers, regulators, private sector representatives, researchers, academics, and other interested parties can exchange views, experiences, and best practices in this area that contribute to promoting the inclusion of the countries of the region in the Information and Knowledge-based Society.

4. To urge the member states to participate in the activities of CITEL in order to ensure regional representation in the debates.

5. To request CITEL to report to the General Assembly at its forty-first regular session on the implementation of this resolution, the execution of which shall be subject to the availability of financial resources in the program-budget of the Organization and other resources.

APPENDIX

INTER-AMERICAN TELECOMMUNICATION COMMISSION

DECLARATION OF MEXICO

March 11, 2010

THE REPRESENTATIVES OF THE TELECOMMUNICATION ADMINISTRATIONS OF THE ORGANIZATION OF AMERICAN STATES (OAS), at the Fifth Regular Meeting of the Assembly of the Inter-American Telecommunication Commission (CITEL), held in Mexico, D.F., Mexico, from March 8 to 11, 2010,

TAKING INTO ACCOUNT:

That the Heads of State and Government, at the Fifth Summit of the Americas, decided to reaffirm the values of the Charter of the United Nations, the Charter of the Organization of American States, the Inter-American Democratic Charter, the Monterrey Consensus on Financing for Development, and the Millennium Declaration, in order to intensify the fight in the region against poverty, hunger, social exclusion, discrimination and inequality, and to promote inclusion and social cohesion to improve the living conditions of our people and achieve development and social justice;

That the 2009 Report of the Millennium Development Goals Gap Task Force, established by the United Nations Secretary-General to improve tracking of the Millennium Development Goals, notes that the digital divide, in the form of differences in access and affordability, is still very wide between developing and developed countries, as well as within countries;

That the Agenda for Connectivity in the Americas recognizes the profound impact of telecommunications/information and communication technologies (ICTs) on our lives, as well as their social and economic consequences, including the disparity in the capacity to access information and the need (i) to transform such information into knowledge for the benefit of all citizens of the Americas, and (ii) for active participation by civil society, including the private sector, in implementing the Agenda for Connectivity; and
That resolution AG/RES. 2440 (XXXIX-O/09), “Telecommunications Development in the Region to Reduce the Digital Divide,” adopted by the OAS General Assembly, reiterates and strengthens the priority mandate of CITEL, *inter alia* to address the ongoing evolution of telecommunication/ICTs and to reduce the divide separating countries in the area of telecommunications/ICTs;

RECOGNIZING:

That confidence and security in the use of telecommunications/ICTs are highly important pillars in creating the Information and Knowledge-based Society, as a result of which the countries of the region, especially the developing countries, require an ongoing exchange of experiences and best practices for the formulation of national, regional, and international policies;

That telecommunications/ICTs have the potential to provide solutions to development problems, promoting economic growth, competitiveness, and access to knowledge through information, contributing to the eradication of poverty and the integration of all countries of the Americas;

That Mexico will host the Sixteenth Session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, to be held from November 29 to December 10, 2010, considering that telecommunications/ICTs play a very important part in international, regional, and national efforts to mitigate climate change, prevent natural disasters, and provide emergency relief;

That governments are formulating policies designed to meet national development needs, these being a significant factor in promoting participation by many interested parties to contribute to these efforts and ensure that measures adopted are supported by information exchange and regional and international collaboration;

That progress has been achieved in terms of the level of connectivity, driven especially by the growth of mobile wireless access. However, substantial disparities remain in the region in terms of the penetration and affordability of telecommunication services. Therefore, connectivity promotion activities will constitute a tool to generate the integral development of the region;

That developing countries require support to profit further from technological convergence and the new technologies, to which end, more telecommunication infrastructure should be created to reduce the existing digital divide;

That governments, academic institutions, and university-associated research centers have a strategic part to play in building the Information and Knowledge-based Society; and

That diverse initiatives worldwide incorporate, as a societal goal, the facilitation of access to telecommunications/ICTs, based on an inclusive, universal, and supportive approach,

DECLARE:

That to continue to move forward in building the Information and Knowledge-based Society in the Americas, it is advisable to reaffirm our commitment to promoting the growth of telecommunication/ICT infrastructure through public and private investment, and to establish mechanisms for infrastructure-sharing at affordable costs, benefiting the end user, mainly the most disadvantaged sector of the populace;

That broadband access by the majority of the population of the Americas is one of the main challenges faced by governments; hence CITEL, as the region’s leading telecommunications/ICTs, entity,
must constitute a strategic pillar for the establishment of public policy designed to promote better development and regional integration; and

That the advantages afforded by broadband are of great support in the development and implementation of public and social services, such as health, education, and culture, and for different areas of economic activity and government;

AGREE:

To promote, in the framework of CITEL, the generation and recommendation of guidelines supporting the Administrations in the establishment of policies and standards that promote: technological innovation, the transfer of knowledge, service development, market development, expansion of telecommunication/ICT infrastructure, promotion and development of medium and long-term sustainable applications, e-commerce, the security of networks, and the provision of government services applications, and, especially, to point to practical applications and provide mechanisms designed to achieve optimal use of telecommunications/ICTs;

To promote convergence and increased competition as forces driving the provision of telecommunication services at affordable tariffs for the population as a whole, especially the most disadvantaged, while fostering effective public policies to facilitate universal access;

To promote the dissemination of information enabling the populace to learn about the characteristics of the service, and its tariffs and security, available on the market;

To strengthen CITEL so that it can remain the leading regional telecommunication/ICT reference point, proposing initiatives, developing programs, and executing projects aimed at fostering the sector’s optimal development with a view to achieving the Millennium Development Goals;

To collaborate internally with the OAS to formulate joint projects, among others, related to health and education, climate change, combating security concerns, gender equity, and the rights of indigenous peoples and persons with disabilities;

To establish closer ties with other regional and international organizations, promoting information exchange, technical assistance, and mutual support in analyzing specific matters, which will enable, among other things, awareness to be gained of international telecommunication trends;

To strengthen the development of activities and the review of best practices focusing on the use of telecommunications and ICTs to counteract the impacts of climate change;

To promote the coordination of efforts by public and private entities aimed at the appropriate handling of electronic waste and the use of reusable, recyclable and biodegradable equipment and materials, as well as products manufactured with recycled material in processes that do not damage the environment;

To promote the creation of local content enabling greater advantage to be taken of broadband access, taking the due precautions with respect to intellectual property rights in order to combat piracy and forgery;

To promote information exchange among interested parties regarding online security measures to protect children and young people from potential attacks and harmful content via the Internet.
To promote information exchange regarding the protection of confidential data of users who conduct various activities over the Internet and to afford interested parties greater certainty regarding the security of their transactions;

To propose and develop strategies that enable telecommunication infrastructure to be recognized as a decisive factor in natural disaster prevention, mitigation, aid, relief, and reconstruction actions;

To promote access by all citizens to the Information and Knowledge-based Society; to promote online network communities in education, research, health, business, and government; and to promote job creation and economic development, especially by small and medium-sized enterprises, trade and services, tourism, the agricultural and export sectors, culture, and recreation;

To continue fulfilling the telecommunication-related commitments assumed at the Summits of the Americas, and to promote and disseminate the implementation of the recommendations and guidelines of CITEL;

To encourage, on a voluntary basis, the implementation of Mutual Recognition Agreements (MRAs), such as that of CITEL, which can serve as instruments to facilitate efficient trade of telecommunication equipment in the region, to promote an effective regulatory cooperation, as well as to collaborate in the establishment of consistent procedures of market surveillance and exchange of information for the purpose of protecting the integrity of the telecommunication market in the region;

To build up CITEL’s telecommunication training program, in coordination with CITEL’s Regional Training Centers, the International Telecommunication Union’s Center of Excellence for the Americas Region, the private sector, and regional and subregional organizations, through the use of advanced education and research networks, and the establishment of Caribbean networks, as well as other civil society entities; and

To present this declaration to other regional and international forums for their information.

In witness whereof, the delegates of the member states participating in the Fifth Regular Meeting of the Assembly of the Inter-American Telecommunication Commission hereby adopt this Declaration in Mexico City, Mexico, on March 11, 2010.

2. In case of conflict between the Statute and these Regulations, the Statute shall take precedence.

3. The technical autonomy of CITEL established pursuant to the Statute, includes:

   b. A direct technical relationship with the General Assembly of the Organization of American States (hereafter "the Organization") notwithstanding its obligation to submit its Annual Report of activities to the Permanent Council of the Organization, so that the Council has the opportunity to present its observations and recommendations to the General Assembly pursuant to Article 91(f) of the Charter of the Organization;
   c. Direct contact with the Secretary General of the Organization for all administrative and budgetary matters;
   d. Competence to establish relations with other international organizations that participate in the development of telecommunications/information and communication technologies (ICT) (hereinafter telecommunications/ICT) throughout the American States; and

Article 213
ORGANIZATION

Article 4
LIAISON

Each Member State shall notify the Executive Secretary of CITEL, in writing, within thirty days of the termination of the Regular Meeting of the CITEL Assembly, the name of the institution and the person within the institution that will serve as the official liaison between CITEL and that Member State with respect to telecommunications/ICT. Article 6
PRINCIPLE OF ROTATION

In the application of the principle of rotation in selecting the country where a Regular Meeting of the CITEL Assembly is to take place, it is understood that the Regular Meeting shall not be held in the territory of a Member State if another Member State in which fewer meetings have been held should offer its territory for this purpose. Recognized regional affinities shall also be considered when applying the principle of rotation, e.g. North America, Central America, Andean, Caribbean Region, or other distinguishable regional affinities.

Article 7
SPECIAL MEETINGS

In special circumstances, at the initiative of the General Assembly of the Organization, on the recommendation of any Council of the Organization, or at the initiative of COM/CITEL, the CITEL Assembly may hold a Special Meeting to consider specific matters, if those matters are of such importance as to preclude waiting for the next Regular Meeting of the Assembly. COM/CITEL will convene and set the date and place for such Special Meeting, subject to available funding.
Article 8

ALTERNATIVE SITE FOR THE MEETINGS

If for any reason a Regular or Special Meeting of the CITEL Assembly cannot be held in a selected country, it shall be held at the General Secretariat of the Organization headquarters, unless one of the Member States, with sufficient advance notice, offers to host the Assembly, in which case COM/CITEL may agree to hold the meeting in that country.

Article 9

NOTICE OF CONVOCATION OF MEETINGS

14.
