PROPOSALS FOR THE WORK OF THE CONFERENCE

Agenda item 1.14

1.14 to consider, on the basis of ITU-R studies in accordance with Resolution **160 (WRC-15)**, appropriate regulatory actions for high-altitude platform stations (HAPS), within existing fixed-service allocations;

Part 5 – changes to Article 11 and Appendix 4

BACKGROUND

It is important to note that there are provisions in Article **11** (Nos. **11.9** and **11.26**) and Appendix **4** (Table 2 of Annex 1) that address HAPS notifications and required parameters. CPM19-2 meeting discussed in detail the principal provisions necessary and appropriate for implementation of HAPS in the fixed service in the bands under consideration per Resolution **160 (WRC-15)**. Consequential to WRC-19 decisions to add and/or modify the regulatory provisions relating to HAPS in the Radio Regulations, modifications to Article **11** and Appendix **4** would be necessary to ensure proper examination and recording of the HAPS systems in the Master International Frequency Register.
